Blackstone Private Credit Fund (BCRED)

As of March 31, 2023

This is neither an offer to sell nor a solicitation of an offer to buy the securities described herein and must be read in conjunction with the prospectus in order to understand fully all of the implications and risks of the offering to which this sales and advertising literature relates. A COPY OF THE PROSPECTUS MUST BE MADE AVAILABLE TO YOU IN ADVANCE OF ANY PURCHASE IN CONNECTION WITH THIS OFFERING, AND IS AVAILABLE AT WWW.BCRED.COM.

Blackstone Securities Partners L.P., Dealer Manager / Member FINRA
**IMPORTANT DISCLOSURE INFORMATION**

**Summary of Risk Factors**

Blackstone Private Credit Fund ("BCRED") is a non-exchange traded business development company ("BDC") that expects to invest at least 80% of its total assets (net assets plus borrowings for investment purposes) in private credit investments (loans, bonds and other credit instruments that are issued in private offerings or issued by private companies). This investment involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. You should read the prospectus carefully for a description of the risks associated with an investment in BCRED. These risks include, but are not limited to, the following:

- We have limited prior operating history and there is no assurance that we will achieve our investment objectives.
- This is a “blind pool” offering and thus you will not have the opportunity to evaluate our investments before we make them.
- You should not expect to be able to sell your shares regardless of how we perform.
- You should consider that you may not have access to the money you invest for an extended period of time.
- We do not intend to list our shares on any securities exchange, and we do not expect a secondary market in our shares to develop prior to any listing.
- Because you may be unable to sell your shares, you will be unable to reduce your exposure in any market downturn.
- We have implemented a share repurchase program, but only a limited number of shares will be eligible for repurchase and repurchases will be subject to available liquidity and other significant restrictions.
- An investment in our common shares is not suitable for you if you need access to the money you invest. See “Suitability Standards” and “Share Repurchase Program” in the prospectus.
- You will bear substantial fees and expenses in connection with your investment. See “Fees and Expenses” in the prospectus.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital or offering proceeds, and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources.
- Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by Blackstone Credit BDC Advisors LLC (the “Adviser”) or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
- We use and continue to expect to use leverage, which will magnify the potential for loss on amounts invested in us.
- We intend to invest in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as “junk,” have predominantly speculative characteristics with respect to the issuer’s capacity to pay interest and repay principal. They may also be illiquid and difficult to value.
- We do not own the Blackstone name, but we are permitted to use it as part of our corporate name pursuant to the investment advisory agreement between BCRED and an affiliate of Blackstone Inc. ("Blackstone"). Use of the name by other parties or the termination of the use of the Blackstone name under the investment advisory agreement may harm our business.

Neither the Securities and Exchange Commission nor any state securities regulator has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is unlawful.

This sales material must be read in conjunction with the BCRED prospectus in order to fully understand all the implications and risks of an investment in BCRED. This sales material is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus, which must be made available to you prior to making a purchase of shares and is available at www.BCRED.com. Prior to making an investment, investors should read the prospectus, including the “Risk Factors” section therein, which contains a discussion of the risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition.

Numerical data is approximate and as of March 31, 2023, unless otherwise noted. The words “we”, “us”, and “our” refer to BCRED, unless the context requires otherwise.
Forward-Looking Statement Disclosure

Certain information contained in this communication constitutes “forward-looking statements” within the meaning of the federal securities laws and the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of forward-looking terminology, such as “outlook,” “indicator,” “believes,” “expects,” “potential,” “continues,” “may,” “can,” “will,” “should,” “seeks,” “approximately,” “predicts,” “intends,” “plans,” “estimates,” “anticipates,” “confident,” “conviction,” “identified” or the negative versions of these words or other comparable words thereof. These may include BCRED's financial estimates and their underlying assumptions, statements about plans, objectives and expectations with respect to future operations, statements regarding future performance, statements regarding economic and market trends and statements regarding identified but not yet closed investments. Such forward-looking statements are inherently subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. BCRED believes these factors include but are not limited to those described under the section entitled “Risk Factors” in its prospectus and annual report for the most recent fiscal year, and any such updated factors included in its periodic filings with the Securities and Exchange Commission (the “SEC”), which are accessible on the SEC’s website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this document (or BCRED's prospectus and other filings). Except as otherwise required by federal securities laws, BCRED undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

Additional Important Disclosures

This material was not created by any third-party registered broker-dealers or investment advisers who are distributing shares of BCRED (each, a “Dealer”). The Dealers are not affiliated with BCRED and have not prepared the material or the information herein.

Investments mentioned may not be in the best interest of, or suitable for all investors. Any product discussed herein may be purchased only after an investor has carefully reviewed the prospectus and executed the subscription documents.

Alternative investments often are speculative, typically have higher fees than traditional investments, often include a high degree of risk and are in the best interest of, or suitable for, eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time. They may be highly illiquid and can engage in leverage and other speculative practices that may increase volatility and risk of loss.

Although certain Loans in which the Fund may invest will be secured by collateral, there can be no assurance that such collateral could be readily liquidated or that the liquidation of such collateral would satisfy the borrower’s obligation in the event of non-payment of scheduled interest or principal.

Opinions expressed herein reflect the current opinions of Blackstone as of the date appearing in the materials only and are based on Blackstone’s opinions of the current market environment, which is subject to change. Stockholders, financial professionals and prospective investors should not rely solely upon the information presented when making an investment decision and should review the most recent prospectus, as supplemented, available at www.BCRED.com. Certain information contained in the materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Further, opinions expressed herein may differ from the opinions expressed by a Dealer and/or other businesses / affiliates of a Dealer. This is not a “research report” as defined by FINRA Rule 2241 and was not prepared by the research departments of a Dealer or its affiliates.

Blackstone Securities Partners L.P. (“BSP”) is a member of FINRA and a broker-dealer whose purpose is to distribute Blackstone managed or affiliated products. BSP provides services to its Blackstone affiliates, not to investors in its funds, strategies or other products. BSP does not make any recommendation regarding, and will not monitor, any investment. As such, when BSP presents an investment strategy or product to an investor, BSP does not collect the information necessary to determine—and BSP does not engage in a determination regarding—whether an investment in the strategy or product is in the best interests of, or is suitable for, the investor. You should exercise your own judgment and/or consult with a professional advisor to determine whether it is advisable for you to invest in any Blackstone strategy or product. Please note that BSP may not provide the kinds of financial services that you might expect from another financial intermediary, such as overseeing any brokerage or similar account. For financial advice relating to an investment in any Blackstone strategy or product, contact your own professional advisor.

Past performance is no guarantee of future results. Actual results may vary. Diversification of an investor’s portfolio does not assure a profit or protect against loss in a declining market.
Alternative investments involve complex tax structures, tax inefficient investing, and delays in distributing important tax information. Individual funds have specific risks related to their investment programs that will vary from fund to fund. Investors should consult their own tax and legal advisors as Dealers generally do not provide tax or legal advice. BDCs are generally not taxed at the corporate level to the extent they distribute all of their taxable income in the form of dividends. Ordinary income dividends are taxed at individual tax rates and distributions may be subject to state tax. Each investor’s tax considerations are different and consulting a tax advisor is recommended. Any of the data provided herein should not be construed as investment, tax, accounting or legal advice.

Interests in alternative investment products are distributed by the applicable Dealer and (1) are not FDIC-insured, (2) are not deposits or other obligations of such Dealer or any of its affiliates, and (3) are not guaranteed by such Dealer and its affiliates. Each Dealer is a registered broker-dealer or investment adviser, not a bank.

**Blackstone Proprietary Data.** Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

**Case Studies.** The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by the Fund in employing the Fund's investment strategies. It should not be assumed that the Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by the Fund will be made under different market conditions from those investments presented or referenced and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of the Fund as well as other Blackstone personnel who will not be involved in the management and operations of such Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

**Exchange Rate.** Currency fluctuations may have an adverse effect on the value, price, income or costs of the product which may increase or decrease as a result of changes in exchange rates.

**Recent Market Events Risk.** Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or (e.g., COVID-19), recessions, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

**The North America Direct Lending Track Record.** Represents first lien unitranche debt (which may be secured by the applicable borrower's assets and/or equity) transactions in companies headquartered in or which received the majority of their revenue from U.S. and Canada that were originated or anchored by certain Blackstone Credit managed, advised or sub advised funds, Blackstone Credit managed mezzanine funds and Blackstone Credit advised business development companies (such advised business development companies, the “BDCs”), as well as certain other Blackstone Credit managed funds and accounts and, with respect to certain transactions, investments allocated to affiliates of Blackstone Credit, which may be sold to Blackstone Credit managed funds or accounts in the future, since 2006. With respect to certain transactions the North America Direct Lending Track Record includes free equity and/or warrants that accompanied the debt financings, as well as any loans or securities into which the applicable first lien and unitranche debt may have been restructured subsequent to Blackstone Credit’s initial investment. The North America Direct Lending Track Record excludes (i) broadly syndicated, mezzanine, second lien and equity (other than the aforementioned free equity and/or warrants or securities issued upon restructuring) transactions, among others and (ii) transactions where Blackstone Credit's invested capital (net of transactions fees) was under $25 million.

**Third Party Information.** Certain information contained in the Materials has been obtained form sources outside Blackstone, which in certain cases have not been updated through the date hereof. While such information is believed to be reliable for purposes used herein, no representations are made as to the accuracy or completeness thereof and none of Blackstone, its funds, nor any of their affiliates takes any responsibility for, and has not independently verified, any such information.

**Index Definitions.**

The Cliffwater Direct Lending Index (CDLI) seeks to measure the unlevered, gross of fee performance of US middle market corporate loans, as represented by the asset-weighted performance of the underlying assets of Business Development Companies (BDCs), including both exchange-traded and unlisted BDCs, subject to certain eligibility requirements.
IMPORTANT DISCLOSURE INFORMATION (CONT’D)

Index Definitions (Continued)

Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the US leveraged loan market based upon market weightings, spreads and interest payments.

Bloomberg US Corporate High Yield Index measures the USD-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody’s, Fitch and S&P is Ba1/BB+/BB+ or below.

Bloomberg US Treasury Index is a rules-based, market-value weighted index engineered to measure the performance and characteristics of fixed rate coupon US Treasuries which have a maturity greater than 12 months. To be included in the index a security must have a minimum par amount of $1 billion.

Bloomberg US Aggregate Bond Index represents securities that are SEC-registered, taxable, and dollar denominated. The index covers the US investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. These major sectors are subdivided into more specific indices that are calculated and reported on a regular basis.

Index Comparison. The volatility and risk profile of the indices presented in this document is likely to be materially different from that of BCRED. In addition, the indices employ different investment guidelines and criteria than BCRED and do not employ leverage; as a result, the holdings in BCRED and the liquidity of such holdings may differ significantly from the securities that comprise the indices. The indices are not subject to fees or expenses and it may not be possible to invest in the indices. A summary of the investment guidelines for the indices presented is available upon request.

Additional Information on Certain Indexes. Investment Grade Bonds is represented by the Bloomberg U.S. Aggregate Bond Index. Leveraged Loans is represented by the Morningstar LSTA US Leveraged Loan Index. High Yield is represented by the Bloomberg US Corporate High Yield Index. It is not possible to invest in any of the above indices. We believe that these indices are appropriate and accepted indexes representing common public fixed income asset classes.

An investment in BCRED has material differences from an investment in investment grade bonds, leveraged loans, and high yield bonds, including, among other things, those related to costs and expenses, liquidity, volatility, risk profile and tax treatment. Unlike BCRED shareholders, holders of bonds do not hold an ownership interest in the issuer. Investment grade bonds and high yield bonds are typically issued in $1,000 or $5,000 denominations and when purchased as a new issue, are not subject to fees or expenses. Leveraged loan denominations are negotiated by the issuer and arranger and typically are subject to fees and expenses. The purchase price of BCRED shares is generally the prior month’s NAV per share for the applicable class, plus upfront selling commissions and dealer manager fees for Class S and D shares. Such shares classes are also subject to shareholder servicing fees.

While the liquidity of assets in public markets depends on its credit rating and market conditions, there exists a secondary market for such bonds. There is no public trading market for shares of BCRED and an investor’s ability to dispose of shares will likely be limited to repurchase by us, subject to the limitations described in BCRED’s prospectus.

The volatility and risk profile of public markets are also likely to be materially different from that of BCRED because, among other things, BCRED’s shares are not fixed-rate debt instruments and such bonds represent debt issued by corporations across a variety of issuers with varying pricing, terms and conditions. BCRED’s share price may be subject to less volatility because its per share NAV is based on the value of assets it owns and is not subject to market pricing forces in the same way as are the prices of bonds in public markets, but is not immune to fluctuations. The bonds in the Bloomberg U.S. Aggregate Bond Index and Bloomberg U.S. Corporate High Yield Index bear a contractual interest rate for periods of over one year, whereas BCRED’s yield is generated primarily by income from its underlying assets and these obligations are not rated. Furthermore, issuers of investment grade bonds and high yield bonds are contractually obligated to pay periodic interest and repay a fixed principal amount at maturity, whereas we cannot guarantee that we will make any distributions and investing in BCRED involves a high degree of risk, as described in BCRED’s prospectus.

In addition, the Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Corporate High Yield Index, and Morningstar LSTA US Leveraged Loan Index employ different investment guidelines and criteria than BCRED; as a result, the assets in BCRED may differ significantly from the holdings of the securities that comprise these indexes.

Such bonds generally provide investors with current income, and BCRED’s primary objective is to provide current income with some appreciation. While BCRED invests primarily in privately originated and privately negotiated U.S. first lien senior secured floating rate loans, an investment in BCRED is not a direct investment in the underlying portfolio companies and BCRED’s investments are typically below investment grade.

Latest available 1-month, 3-month, YTD, 1-year, 5-year, and 10-year returns for the indexes are as follows: Bloomberg U.S. Aggregate Bond Index: 2.5%; 3.0%; 3.0%; -4.8%; 0.9%; 1.4%. Morningstar LSTA US Leveraged Loan Index: 0.0%; 3.2%; 3.2%; 2.5%; 3.6%; 3.8%. Bloomberg US Corporate High Yield Index: 1.1%; 3.6%; 3.6%; -3.3%; 3.2%; 4.1%.
BCRED is a private credit solution for income-focused investors sponsored by Blackstone

**Seeking Defensive Risk-Adjusted Returns**
Seeking to generate current income through investments primarily in floating rate loans

**Senior Secured Focus**
Primarily invests in senior secured loans with structural protections

**Established Credit Platform**
Experienced global team with extensive experience and deep sponsor relationships

**Beneficial Structure**
Monthly subscriptions, quarterly liquidity, expected monthly distributions\(^{(1)}\) and 1099-DIV tax reporting

Note: Reflects Blackstone Credit’s views and beliefs. The summary presented herein will be superseded by and qualified in its entirety by final fund documentation. Past performance is not necessarily indicative of future results and there can be no assurance that any proposed Blackstone Credit fund or strategy will be able to achieve comparable, and that any proposed Blackstone Credit fund or strategy will be able to implement its investment strategy, achieve its investment objectives or avoid significant losses.

(1) For a full summary of the key terms, please see slide 37. Distributions are not guaranteed. Distributions have been and may in the future be funded through sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds. As of March 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. See “Important Disclosure Information” at the beginning of this presentation and BCRED’s prospectus.

**Note:** Data is as of March 31, 2023, unless otherwise indicated. Returns for periods greater than one year are annualized. Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities.

(1) Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. Returns greater than one year are annualized. Inception-to-date (ITD) total return for Class S (no/with upfront placement fee): 7.8%/6.1%. ITD total return for Class D (no/with upfront placement fee): 7.4%/6.5%. All returns shown are derived from unaudited financial information and are net of all BCRED expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. Past performance is historical and not a guarantee of future results. Class D and Class S listed as (With Upfront Placement Fee or Brokerage Commissions) reflect the returns after the maximum upfront placement fees. Class D and Class S listed as (No Upfront Placement Fee or Brokerage Commissions) exclude upfront placement fees. Class I does not have upfront placement fees. The returns have been prepared using unaudited data and valuations of the underlying investments in BCRED’s portfolio, which are estimates of fair value and form the basis for BCRED’s NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.

(2) Annualized Distribution Yield reflects April’s distribution annualized and divided by last reported NAV from March. Distributions are not guaranteed. Distributions have been and may in the future be funded through sources other than cash flow. See BCRED’s prospectus. Please visit BCRED’s website for notices regarding distributions subject to Section 19(a) of the Investment Company Act of 1940. We cannot guarantee that we will make distributions, and if we do, we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources. As of March 31, 2023, 100% of Inception to date distributions were funded from cash flows from operations. A return of capital (1) is a return of the original amount invested, (2) does not constitute earnings or profits and (3) will have the effect of reducing the basis such that when a shareholder sells its shares the sale may be subject to taxes even if the shares are sold for less than the original purchase price. Distribution may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled. Annualized Distribution Yield for other share classes are as follows: 9.3% for Class S and 9.9% for Class D.

(3) Excludes BCRED’s equity investments in joint ventures which have similar underlying qualities.

(4) As of March 31, 2023. Includes all private debt investments for which fair value is determined by BCRED’s Board of Trustees (the “Board”) in conjunction with a third-party valuation firm and excludes quoted assets. Average loan-to-value represents the net ratio of loan-to-value for each portfolio company, weighted based on the fair value of total applicable BCRED private debt investments. Loan-to-value is calculated as the current total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company as of the most recent quarter end. See BCRED’s prospectus.

(5) As a percentage of BCRED’s investment portfolio excluding equity investments in joint ventures, which have similar portfolio composition and underlying qualities.

Source: Morningstar, Cliffwater Direct Lending Index, as of December 31, 2022. The returns presented herein are since the inception of BCRED. 1-year returns are as follows: Investment Grade Bonds: -13.0%; High Yield Bonds: -11.2%; Leveraged Loans: -0.6%; Private Credit: 6.3%. Indices. "Private Credit" is represented by the Cliffwater Direct Lending Index. “Leveraged Loans” is represented by the Morningstar LSTA US Leveraged Loan Index. “High Yield Bonds” is represented by the Bloomberg US Corporate High Yield Index. “Investment Grade Bonds” is represented by the Bloomberg US Aggregate Bond Index. The indices presented (excluding Private Credit) represent investments that have material differences from an investment in BCRED or the investments that BCRED may make. Investments / Risks. BCRED expects to invest primarily in loans to private US companies similar to those represented in the Private Credit index and therefore will face risks similar to those facing the assets represented by that index. BCRED’s investments and Private Credit assets are expected to face risks different than those faced by the other indices, including significantly less liquidity as Private Credit assets generally do not have liquid markets and greater risk of default and related risk of loss of principal. BCRED may also invest in instruments not represented by Private Credit or the other indices above, including equities, preferred securities or non-US securities (including non-US dollar denominated instruments), among others, and therefore is subject to additional risks, such as increased volatility, currency risk, risk of regulation or foreign market events. Fees and Expenses. An investment in BCRED is subject to fees and expenses, which will lower BCRED’s returns. The indices presented are not subject to fees or expenses and it is not possible to directly invest in any index presented. Use of Leverage. Unlike the indices presented, BCRED does and will continue to employ leverage, which will increase the volatility of BCRED’s investments and will magnify the potential for loss of amounts invested in BCRED. See “Important Disclosure Information” for important information regarding index comparisons.

For more information on these indices, please see the Index Definitions section at the front of this presentation. For a more detailed description of BCRED’s risk factors, please refer to BCRED’s prospectus. Past performance is not necessarily indicative of future results, and there can be no assurance that Blackstone Credit will achieve comparable results or that Blackstone Credit will be able to implement its investment strategy or achieve its investment objectives. Portfolio diversification does not guarantee profit or protect against loss. For more information, please see additional disclosures at the front of this presentation.
STRONG HISTORICAL RISK-ADJUSTED RETURNS

Private credit has provided low historical volatility and strong relative returns

Risk-Return
(15 Years Annualized)

Note: Morningstar Direct, as of December 31, 2022. Volatility is measured using standard deviation. All of the quarterly standard deviations are then annualized. Indices. “Private Credit” is represented by the Cliffwater Direct Lending Index. “Leveraged Loans” is represented by the Morningstar LSTA US Leveraged Loan Index. “US High Yield” is represented by the Bloomberg US Corporate High Yield Index. “Investment Grade Bonds” is represented by the Bloomberg US Aggregate Bond Index. The indices presented (excluding Private Credit) represent investments that have material differences from an investment in BCRED or the investments that BCRED may make. Investments / Risks. BCRED expects to invest primarily in loans to private US companies similar to those represented in the Private Credit index and therefore will face risks similar to those facing the assets represented by that index. BCRED’s investments and Private Credit assets are expected to face risks different than those faced by the other indices, including significantly less liquidity as Private Credit assets generally do not have liquid markets and greater risk of default and related risk of loss of principal. BCRED may also invest in instruments not represented by Private Credit or the other indices above, including equities, preferred securities or non-US securities (including non-US dollar denominated instruments), among others, and therefore is subject to additional risks, such as increased volatility, currency risk, risk of regulation or foreign market events. Fees and Expenses. An investment in BCRED is subject to fees and expenses, which will lower BCRED’s returns. The indices presented are not subject to fees or expenses and it is not possible to directly invest in any index presented. Use of Leverage. Unlike the indices presented, BCRED does and will continue to employ leverage, which will increase the volatility of BCRED’s investments and will magnify the potential for loss of amounts invested in BCRED. See “Important Disclosure Information” for important information regarding index comparisons.

For more information on these indices, please see the Index Definitions section at the front of this presentation. For a more detailed description of BCRED’s risk factors, please refer to BCRED’s prospectus. Past performance is not necessarily indicative of future results, and there can be no assurance that Blackstone Credit will achieve comparable results or that Blackstone Credit will be able to implement its investment strategy or achieve its investment objectives. Portfolio diversification does not guarantee profit or protect against loss. For more information, please see additional disclosures at the front of this presentation.
Private credit has historically benefitted from rising rates

Source: Morningstar, Cliffwater Direct Lending Index. Data shown is since inception of the Cliffwater Direct Lending Index. **Indices.** “Private Credit” is represented by the Cliffwater Direct Lending Index. The index presented (excluding Private Credit) represents investments that have material differences from an investment in BCRED or the investments that BCRED may make. **Investments / Risks.** BCRED expects to invest primarily in loans to private US companies similar to those represented in the Private Credit index and therefore will face risks similar to those facing the assets represented by that index. BCRED's investments and Private Credit assets are expected to face risks different than those faced by the other index, including significantly less liquidity as Private Credit assets generally do not have liquid markets and greater risk of default and related risk of loss of principal. BCRED may also invest in instruments not represented by Private Credit or the other indices above, including equities, preferred securities or non-U.S. securities (including non-U.S. dollar-denominated instruments), among others, and therefore is subject to additional risks, such as increased volatility, currency risk, risk of regulation or foreign market events. **Fees and Expenses.** An investment in BCRED is subject to fees and expenses, which will lower BCRED's returns. The index presented are not subject to fees or expenses and it is not possible to directly invest in any index presented. **Use of Leverage.** Unlike the index presented, BCRED does and will continue to employ leverage, which will increase the volatility of BCRED’s investments and will magnify the potential for loss of amounts invested in BCRED.

For more information on these indices, please see the Index Definitions section at the front of this presentation. For a more detailed description of BCRED’s risk factors, please refer to BCRED’s prospectus. Past performance is not necessarily indicative of future results, and there can be no assurance that Blackstone Credit will achieve comparable results or that Blackstone Credit will be able to implement its investment strategy or achieve its investment objectives. Portfolio diversification does not guarantee profit or protect against loss. For more information, please see additional disclosures at the front of this presentation.
Uncertainty in public markets can lead to increased opportunities in private markets

Driver of Opportunities
Slowdown in US Leveraged Loan and High Yield issuance(1)

Growth of Private Credit
Private Credit Increasing as a Segment of the Total Addressable US Sub-Investment Grade Credit Market(2)

Industry research suggests private credit will reach $2.3T by 2027(3)

Note: Past performance is not necessarily indicative of future results. The above reflects Blackstone Credit’s views and beliefs unless otherwise indicated.

2) Source: Preqin, Credit Suisse, as of September 30, 2022, which is the latest data available. Total addressable US sub-investment grade credit market defined as the aggregate of the US high yield bonds, US leveraged loans and North American private credit markets. Leveraged loans refer to broadly syndicated loans. Private Credit includes BDCs.
3) Source: Preqin, as of December 2022.
Demand for private financing continues to grow as PE dry powder has reached near record levels

Private Equity (PE) Buyout Dry Powder

($ in billions)

Growing Borrower Interest

- **Speed** to close
- **Certainty** of terms
- **Flexibility** in structuring
- **Bilateral** process
- **Limited ratings** requirement
- **Ability to maintain confidentiality**

Why BCRED
BCRED’S INVESTMENT FOCUS

Seeks to capitalize on private credit opportunities

Portfolio Composition
Private Credit
Predominantly direct lending through first-lien senior secured loans to US companies
- Large Corporate Lending
- Upper-Middle Market Lending
- Anchor Investments

Illustrative Capital Structure

For illustrative purposes only. Actual results may vary. The above reflects Blackstone Credit’s views and beliefs unless otherwise indicated.
A POTENTIAL SOLUTION FOR ALL ENVIRONMENTS

We believe BCRED is built for changing markets

### Defense
*Seeks to protect against challenging markets with a focus on capital preservation*
- Senior secured focus
- Low LTV
- Large-cap companies
- Portfolio with broad diversity
- Extensive due diligence
- Active monitoring

### Offense
*Seeks risk-adjusted returns and current income especially in today's rising rate environment*
- Primarily floating rate loans
- Seeks high-growth sectors
- Robust deal sourcing
- Value-add for portfolio companies
- Upfront deal fees
- Call premiums

### Core Income Solution
*We believe BCRED is well-positioned as a potential solution across market cycles*

---

Represents Blackstone’s views and beliefs unless otherwise indicated. Past performance is not necessarily indicative of future results, and there can be no assurance that Blackstone Credit will achieve comparable results or that Blackstone Credit will be able to implement its investment strategy or achieve its investment objectives. The above protections do not guarantee profit or protect against loss. See Important Disclosure Information at the beginning of this presentation.
BCRED’S PERFORMANCE

Defensive returns and consistently high income

Class I Performance\(^{(1)}\)

8.7%
inception-to-date net return

Class I Distributions\(^{(2)}\)

10.2%
annualized distribution yield

Note: Data is as of March 31, 2023, unless otherwise indicated. Past performance is not necessarily indicative of future results and there can be no assurance that BCRED will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities.

\(^{(1)}\) Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. Returns greater than one year are annualized. Inception-to-date (ITD) total return for Class S (no/with upfront placement fee): 7.8%/6.1%. ITD total return for Class D (no/with upfront placement fee): 7.4%/6.5%. All returns shown are derived from unaudited financial information and are net of all BCRED expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. Past performance is historical and not a guarantee of future results. Class D and Class S listed as (With Upfront Placement Fee or Brokerage Commissions) reflect the returns after the maximum upfront placement fees. Class D and Class S listed as (No Upfront Placement Fee or Brokerage Commissions) exclude upfront placement fees. Class I does not have upfront placement fees. The returns have been prepared using unaudited data and valuations of the underlying investments in BCRED’s portfolio, which are estimates of fair value and form the basis for BCRED’s NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.

\(^{(2)}\) Annualized Distribution Yield reflects April’s distribution annualized and divided by last reported NAV from March. Distributions are not guaranteed. Distributions have been and may in the future be funded through sources other than cash flow. See BCRED’s prospectus. Please visit BCRED’s website for notices regarding distributions subject to Section 19(a) of the Investment Company Act of 1940. We cannot guarantee that we will make distributions, and if we do, we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources. As of March 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. A return of capital (1) is a return of the original amount invested, (2) does not constitute earnings or profits and (3) will have the effect of reducing the basis such that when a shareholder sells its shares the sale may be subject to taxes even if the shares are sold for less than the original purchase price. Distribution may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled. Annualized Distribution Yield for other share classes are as follows: 9.3% for Class S and 9.9% for Class D.
Prepared for inflation and rising rates

- 97% senior secured debt portfolio
- $200M average issuer EBITDA
- 42% average loan-to-value
- 98% floating rate portfolio

Note: Data as of March 31, 2023, unless otherwise noted. Some of the investments may be considered to have speculative characteristics. See Summary of Risk Factors for more information.

1. Excludes BCRED’s equity investments in joint ventures which have similar underlying qualities.
2. As a percentage of BCRED’s investment portfolio excluding equity investments in joint ventures, which have similar portfolio composition and underlying qualities.
3. As of March 31, 2023. Includes all private debt investments for which fair value is determined by BCRED’s Board in conjunction with a third-party valuation firm and excludes quoted assets. Amounts are weighted on fair market value of each respective investment. Amounts were derived from the most recently available portfolio company financial statements, have not been independently verified by BCRED, and may reflect a normalized or adjusted amount. Accordingly, BCRED makes no representation or warranty in respect of this information. EBITDA is a non-GAAP financial measure. For a particular portfolio company, EBITDA is generally defined as net income before net interest expense, income tax expense, depreciation and amortization. Currency fluctuations may have an adverse effect on the value, price or income and costs of the product which may increase or decrease as a result of changes in exchange rates.
4. As of March 31, 2023. Includes all private debt investments for which fair value is determined by BCRED’s Board in conjunction with a third-party valuation firm and excludes quoted assets. Average loan-to-value represents the net ratio of loan-to-value for each portfolio company, weighted on the fair value of total applicable BCRED private debt investments. Loan-to-value is calculated as the current total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company as of the most recent quarter end. See BCRED’s prospectus.
# Thematic investment in ‘good neighborhoods’

Seeks to offer protection from inflation by focusing on large, performing companies\(^{(1)}\) in sectors we believe exhibit:

- High-growth trends
- Strong cash flow profiles
- Low capital expenditure requirements

**Note:** Data as of March 31, 2023. Reflects Blackstone Credit’s views and beliefs.

\(^{(1)}\) Some of the investments may be considered to have speculative characteristics. See Summary of Risk Factors for more information.

\(^{(2)}\) Measured as the fair market value of investments for each category against the total fair market value of all investments. BCRED’s investment in Joint Ventures are excluded from the industry top 5.
BCRED offers value-added solutions

Traditional Lender

- PROVIDES CAPITAL

- BORROWER

Blackstone Credit as a Value-Add Lender

- PROVIDES CAPITAL

- ENHANCE REVENUE
  - $500M+ revenue generated through Blackstone Portfolio connections

- OPTIMIZE COSTS
  - ≈$3B enterprise value created through cost savings(1) across 75+ spending categories

- EXPERT KNOWLEDGE & RESOURCES
  - 109 internal resources in specialized areas (e.g., data science, procurement, etc.)

Note: All data as of March 31, 2023. For illustrative purposes only. Represents Blackstone's views and beliefs unless otherwise indicated. Past performance is not necessarily indicative of future results, and there can be no assurance that such savings will be achieved in the future. See notes and important disclosures at the beginning of this presentation.

(1) Value creation represents ~$265 million of total annual cost reduction as of March 31, 2023, representing annualized estimated savings utilizing the Blackstone Value Creation program at the time cost is benchmarked with portfolio companies. Savings improved portfolio company EBITDA and created value assuming a 12x average EBITDA multiple.
Blackstone Credit is driving the trend of $1B+ private transactions

$1B+ private deals led by Blackstone Credit

- 30 deals led(1) which is ~50% of the $1B+ deals closed
- ≈$2B weighted average tranche size(2)
- ≈$5B weighted average enterprise value (2)
- ≈42% weighted average loan-to-value(2)

Increasing Trend of $1B+ Deals Being Done in Private Markets

- 60 deals totaling $111B(3)
- 6 deals totaling $12B

Before 2021

Since 2021

Note: Reflects Blackstone Credit’s views and beliefs. Past performance is not necessarily indicative of future results. There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses.

(1) Includes committed deals as of April 25, 2023.
(2) Weighted average stats are weighted based on total deal size. Average loan-to-value is calculated as the total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company at close.
(3) Source: Direct Lending Deals as of February 9, 2023. Blackstone Credit as of April 25, 2023. Includes Blackstone Credit and the rest of the private market.
HIGHLIGHTS OF RECENT LARGE-SCALE FINANCINGS

Scale of Blackstone Credit

Transaction Overview

$1.8B of a $2.15 billion first lien debt package (1)

Deal Highlights

- As an incumbent lender who knew the sponsor well, Blackstone Credit provided a creative and flexible solution with a scaled commitment for a private recapitalization

- Sponsor recognized value in extending hold period of Cambium to benefit from continuing growth and relied on the pricing, execution and certainty of partnering with Blackstone Credit

Key Terms

- Coupon: LIBOR+5.50%, LIBOR floor: 0.75%
- Deal Fee | OID: 1.00%
- Call Protection: Yes

Note: The above reflects Blackstone Credit’s views and beliefs. This case study is for illustrative purposes only, is not representative of all Blackstone Credit investments and does not constitute investment advice or recommendation of past investments. The case study presented herein reflects an objective, non-performance based standard of showing the largest transaction financed by BCRED as of July 2021 based on fair value. Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities. All rights to the trademarks and/or logos listed herein belong to their respective owners and Blackstone Credit’s use hereof does not imply any affiliation with, or endorsement by the owners of these trademarks and/or logos.

(1) Represents the aggregated investment of all participating Blackstone Credit vehicles, including BCRED. Split between $1.65 billion of the first lien term loan and the entire revolver ($150 million).
HIGHLIGHTS OF RECENT LARGE-SCALE FINANCINGS

Leveraging deep sponsor relationships

Transaction Overview

$1.7B of a $3.3 billion financing package(1)

Deal Highlights

- Largest healthcare take-private transaction at the time of investment(2)
- Experience partnering with several leading healthcare and technology sponsors was an advantage
- Blackstone Credit was chosen as lead lender due to close relationships, confidentiality, certainty and scaled commitment

Key Terms

- Coupon: LIBOR+6.25%, (3) LIBOR floor: 0.75%
- Deal Fee | OID: 2.50%
- Call Protection: Yes

Note: The above reflects Blackstone Credit’s views and beliefs. This case study is for illustrative purposes only, is not representative of all Blackstone Credit investments and does not constitute investment advice or recommendation of past investments. The case study presented herein reflects an objective, non-performance based standard of showing the largest healthcare take-private transaction at the time of investment, calculated by fair value. Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities. All rights to the trademarks and/or logos listed herein belong to their respective owners and Blackstone Credit’s use hereof does not imply any affiliation with, or endorsement by the owners of these trademarks and/or logos.

(1) Represents the aggregated investment of all participating Blackstone Credit vehicles, including BCRED. Blackstone Credit commitment is split between $1.3 billion first lien term loan, $138 million first lien delayed draw term loan, and $261 million paid-in-kind (“PIK”) loan.
(2) As of November 2021.
(3) In the first three years, the borrower elected a coupon at an all-in rate of LIBOR+6.25% comprised of LIBOR+3.50% cash coupon + 2.75% PIK coupon, stepping down to LIBOR+5.75% cash coupon in year four.
HIGHLIGHTS OF RECENT LARGE-SCALE FINANCINGS

Power of incumbency

Transaction Overview

$490M of a $940 million first lien debt package\(^{(1)}\)

Deal Highlights

- The GI Alliance (“TGIA”) is the largest gastroenterology/gastrointestinal (“GI”) physician practice management company in the U.S.\(^{(2)}\)
- As an incumbent lender, who knew the sponsor and the business well, BXC was able to lead a large-scale private recapitalization and provide certainty of execution

Key Terms

- Coupon: SOFR + 6.25%, SOFR floor: 1.00%
- Deal Fee | OID: 3.00%
- Call Protection: Yes

Note: The above reflects Blackstone Credit’s views and beliefs. This case study is for illustrative purposes only, is not representative of all Blackstone Credit investments and does not constitute investment advice or recommendation of past investments. The case study presented herein reflects an objective, non-performance based standard of showing BCRED’s largest, publicly announced Blackstone Credit deal in September 2022, by total deal size. Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities. All rights to the trademarks and/or logos listed herein belong to their respective owners and Blackstone Credit’s use hereof does not imply any affiliation with, or endorsement by the owners of these trademarks and/or logos.

\(^{(1)}\) Represents the aggregated investment of all participating Blackstone Credit vehicles, including BCRED. $940 million first lien debt package consists of $700 million of a first lien term loan and $150 million delayed draw term loan that Blackstone Credit participated in pro rata and a $90 million revolver held by a third party.

The level of involvement and role of the advisors with each Blackstone portfolio company may vary, including having no involvement or role at all.
BCRED SUMMARY

Bringing Blackstone Credit to income-focused investors

- Current income generation
- Quality portfolio\(^{(1)}\) with three investment grade ratings\(^{(2)}\)

Senior Secured Focus
- First-lien focus
- Floating rate
- Structural protections

“Value-Add” capital provider
- Experienced global team
- Deep and diverse sponsor and banking relationships

Established Credit Platform

Monthly distributions and subscriptions\(^{(3)}\)
- Quarterly liquidity\(^{(4)}\)
- Form 1099-DIV tax reporting

Seeks Defensive Risk-Adjusted Returns

Beneficial structure

Note: Data as of March 31, 2023. Unless otherwise noted, the above reflects Blackstone’s views and beliefs as of the date of this material. There can be no assurance that views and opinions expressed in this document will come to pass.

\(^{(1)}\) Some of the investments may be considered to have speculative characteristics. See Summary of Risk Factors for more information.

\(^{(2)}\) As of December 31, 2022, BCRED has an investment grade credit rating of BBB / Positive outlook from DBRS Morningstar, provided on November 7, 2022, and an investment grade of Baa3 / stable from Moody’s, provided on September 10, 2021, and an investment grade credit rating of BBB- / stable from S&P, provided by January 6, 2022. The underlying loans in BCRED are not rated. Credit ratings are statements of opinions and are not statements of fact or recommendations to purchase, hold or sell securities. Blackstone provides compensation directly to DBRS/Morningstar, Moody’s and S&P for its evaluation of the Fund. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied on as investment advice.

\(^{(3)}\) Distributions are not guaranteed. Distributions have been and may in the future be funded through sources other than cash flow from operations, including the sale of assets, borrowings, return of capital or offering proceeds. As of March 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. See “Important Disclosure Information” at the beginning of this presentation and BCRED’s prospectus.

\(^{(4)}\) Quarterly tender offers are expected but not guaranteed. See the Term Sheet on page 37, “Important Disclosure Information” at the beginning of this presentation, and BCRED’s prospectus.

Note: Data is as of March 31, 2023, unless otherwise indicated. Returns for periods greater than one year are annualized. Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities.

\(^{(1)}\) Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. Returns greater than one year are annualized. All returns shown are derived from unaudited financial information and are net of all BCRED expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. Past performance is historical and not a guarantee of future results. Class D and Class S listed as (With Upfront Placement Fee or Brokerage Commissions) reflect the returns after the maximum upfront placement fees. Class D and Class S listed as (No Upfront Placement Fee or Brokerage Commissions) exclude upfront placement fees. Class I does not have upfront placement fees. The returns have been prepared using unaudited data and valuations of the underlying investments in BCRED’s portfolio, which are estimates of fair value and form the basis for BCRED’s NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.

\(^{(2)}\) Assumes the maximum amount of upfront placement fees that selling agents may charge (1.5% Class D and 3.5% for Class S).

Note: Past performance is not necessarily indicative of future results and there can be no assurance that BCRED will achieve results comparable to those of any of Blackstone Credit’s prior funds or be able to implement its strategy or achieve its investment objectives, including due to an inability to access sufficient investment opportunities.

(1) Annualized Distribution Yield reflects April’s distribution annualized and divided by last reported NAV from March. Distributions are not guaranteed. Distributions have been and may in the future be funded through sources other than cash flow. See BCRED’s prospectus. Please visit BCRED’s website for notices regarding distributions subject to Section 19(a) of the Investment Company Act of 1940. We cannot guarantee that we will make distributions, and if we do, we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources. As of March 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. A return of capital (1) is a return of the original amount invested. (2) does not constitute earnings or profits and (3) will have the effect of reducing the basis such that when a shareholder sells its shares the sale may be subject to taxes even if the shares are sold for less than the original purchase price. Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
PORTFOLIO CHARACTERISTICS - AS OF MARCH 31, 2023

≈ $47.9B investments at fair value
97% senior secured debt portfolio\(^{(1)}\)
≈ 98% floating rate portfolio\(^{(2)}\)
42% average loan-to-value\(^{(3)}\)

Asset Type \(^{(4)}\)

- First Lien Senior Secured 89%
- Second Lien 4%
- Other 7%

Top 10 Industries (at FMV) \(^{(4)}\)
Portfolio with broad diversity across 516 positions\(^{(5)}\)

- Software 26%
- Professional Services 13%
- Health Care Providers & Services 12%
- Insurance 5%
- IT Services 5%
- Commercial Services & Supplies 3%
- Health Care Technology 3%
- Air Freight & Logistics 3%
- Diversified Consumer Services 3%
- Transportation Infrastructure 3%

\(^{(1)}\) Excludes BCRED’s equity investments in joint ventures which have similar underlying qualities.
\(^{(2)}\) As a percentage of BCRED’s investment portfolio excluding equity investments in joint ventures, which have similar portfolio composition and underlying qualities.
\(^{(3)}\) As of March 31, 2023. Includes all private debt investments for which fair value is determined by BCRED’s Board in conjunction with a third-party valuation firm and excludes quoted assets. Average loan-to-value represents the net ratio of loan-to-value for each portfolio company, weighted based on the fair value of total applicable BCRED private debt investments. Loan-to-value is calculated as the current total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company as of the most recent quarter end. See BCRED’s prospectus.
\(^{(4)}\) Measured as the fair market value of investments for each category against the total fair market value of all investments. Totals may not sum due to rounding. BCRED’s investment in joint ventures are excluded from the industry top 10.
\(^{(5)}\) Diversification does not assure a profit or protect against a loss in a declining market.
BCRED has received three investment grade ratings from DBRS/Morningstar, Moody’s, and S&P

We believe this reflects positively on its financial, operational and investing strength. The ratings may allow BCRED(1) to:

- Issue debt at a potentially more attractive pricing
- Lock in fixed rates that will not change even as interest rates rise
- Borrow capital without having to use assets as collateral
- Further grow and diversify(2) its sources of financing

<table>

</tbody>
</table>

Note: Data as of March 31, 2023, which is the latest available. Reflects Blackstone Credit’s views and beliefs. Past performance is not necessarily indicative of future results. There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses. BCRED has an investment grade credit rating of BBB / Positive outlook from DBRS Morningstar, provided on November 7, 2022, and an investment grade of Baa3 / stable from Moody’s, reiterated on November 4, 2022, and an investment grade credit rating of BBB- / stable from S&P, reiterated on December 12, 2022. The underlying loans in BCRED are not rated. Credit ratings are statements of opinions and are not statements of fact or recommendations to purchase, hold or sell securities. Blackstone provides compensation directly to DBRS/Morningstar, Moody’s and S&P for its evaluation of the Fund. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied on as investment advice.

(1) There can be no assurance that financing will be available and on any particular terms.

(2) Diversification of an investor’s portfolio does not assure a profit or protect against loss in a declining market.

(3) Some of the investments may be considered to have speculative characteristics. See Summary of Risk Factors for more information.

(4) Weighted average cost of debt includes unused fees, deferred financing costs and the accretion of original issue discount. Amounts calculated based on annualized Q1 2023.
**FEATURED PORTFOLIO POSITIONS**

**Mimecast**
Mimecast is a cloud-native cybersecurity company that specializes in delivering email security, email continuity, and archiving services to mid-market, enterprise, and SMB customers.  

**Key Terms**
- Security Type: First lien senior secured

Note: Terms are indicative and subject to change.
(1) This is the amount currently registered with the SEC. We may register additional shares in the future.
(2) Offered on an ongoing basis. Subscription orders for purchases will be accepted on the first day of each month. Subscription requests must be received at least five business days before the first day of each month and NAV will be available generally 20 business days after the effective date of the purchase.
(3) There is no assurance we will pay distributions in any particular amount, if at all. Any distributions we make will be at the discretion of our board of trustees. We have funded and may in the future fund any distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and we have no limits on the amounts we may pay from such sources.
(4) Quarterly tender offers are expected but not guaranteed. See "Important Disclosure Information" at the beginning of this presentation and BCRED’s prospectus.
(5) Select broker-dealers may have different suitability standards, may not offer all share classes, and/or may offer BCRED at a higher minimum initial investment than $2,500.
(6) BSP may elect to accept smaller investments in its discretion.
(7) No upfront sales load will be paid with respect to Class S shares, Class D shares or Class I shares, however, if you buy Class S shares or Class D shares through certain financial intermediaries, they may directly charge you transaction or other fees, including upfront placement fees or brokerage commissions, in such amount as they may determine, provided that selling agents limit such charges to a 1.5% cap on NAV for Class D shares and 3.5% cap on NAV for Class S shares. Selling agents will not charge such fees on Class I shares.
