Note: Distribution rates are not performance; details regarding distribution rate calculations can be found in the endnotes section of this document. Performance shown reflects total return based on changes in net asset value (NAV) per Common Share and assumes reinvested distributions. The NAV of the Fund per Common Share is determined by dividing the total assets of the Fund (the value of the Fund’s portfolio investments and other assets, less any liabilities), by the total number of common shares of beneficial interest (“Common Shares”) of each share class outstanding, rounded to two decimal places. The Fund’s distribution rate may be affected by numerous factors, including, but not limited to, changes in realized and estimated market returns, Fund performance, and other factors. There can be no assurance that a change in market conditions or other factors will not result in a change in the Fund distribution rate at a future time. Distribution rates may be composed of ordinary income, net capital gains, and/or a return of capital (ROC) of your investment in the Fund. Because the distribution rate may include a ROC, it should not be confused with yield or income. In accordance with generally accepted accounting principles (“GAAP”), the Fund estimates that 100% of the distribution referenced herein is attributable to current fiscal year net investment income and the remaining portion (0%) is paid from return of paid-in capital surplus. Final determination of a distribution rate’s tax character will be made on Form 1099 DIV sent to shareholders each January. All figures as of October 31, 2023, unless otherwise noted. This is neither an offer to sell nor a solicitation of an offer to buy the securities described herein, and must be read in conjunction with the prospectus in order to understand fully all of the implications and risks of the offering to which this sales and advertising literature relates. Past performance does not predict future returns, and there can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses. A copy of the prospectus must be made available to you in connection with this offering, and is available at www.bcred.com.

Distributions are not guaranteed. Distributions have been made and may in the future be funded through sources other than cash flows from operations, including the sale of assets, borrowings, return of capital or offering proceeds. As of October 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. Distributions may be made in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Fund’s Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates, and that the repayment of any amounts owed to the issuer’s affiliates will reduce future distributions to which an investor in BCRED would otherwise be entitled. We have not established limits on the amounts we may fund from such sources.

* Measured at fair market value.
** Net Asset value is calculated as total assets (i.e., investments at fair market value, cash, trade receivables and other assets) less total liabilities (i.e., drawn leverage, unsettled trade payables and other liabilities).
*** Measured as the fair market value of investments for each category against the total fair market value of all investments. Totals may not sum due to rounding.

Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. Past results have been limited, returns data and valuations information have been impaired using unaudited data and valuations of the underlying investments in BCRED's portfolio, which are estimates of fair value and form the basis for BCRED's NAV. Values based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized values and may not accurately reflect the price at which assets could be liquidated.

An investment in BCRED's investment portfolio excluding equity investments in joint ventures, which have similar portfolio composition and underlying qualities. As of September 30, 2023. Includes all private debt investments for which fair value is determined by BCRED's Board of Trustees (the "Board") in conjunction with a third party valuation firm and excludes quoted assets and may reflect a normalized or adjusted amount. Average loan-to-value represents the net ratio of loan-to-value for each such portfolio company, weighted based on the fair value of total applicable BCRED private debt investments. Loan-to-value is calculated as the current total net debt through each respective loan tranche divided by the estimated enterprise value of the portfolio company as of the most recent quarter end. See BCRED's prospectus. Performance greater than one year is annualized. All returns shown are derived from unaudited financial information and are net of all BCRED expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. (5) Annualized Distribution Yield reflects November's distribution annualized and divided by last reported NAV from October. Distributions are not guaranteed. Past performance does not predict future results. Distributions may have been and may in the future be funded through sources other than cash flow. See BCRED's prospectus. Please visit the Shareholders page on the https://www.blackstonecredit.com website for notices regarding distributions subject to Section 19(a) of the Investment Company Act of 1940. We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds, and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources. As of October 31, 2023, 100% of inception to date distributions were funded from cash flows from operations. A return of capital (1) is a return of the original amount invested, (2) does not constitute earnings or profits and (3) will have the effect of reducing the basis such that when a shareholder sells its shares the sale may be subject to taxes even if the shares are sold for less than the original purchase price. Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by Blackstone Credit BDC Advisors LLC (the "Adviser") or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.

(6) There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses.

(7) Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates, and that the repayment of any amounts owed to the issuer's affiliates will reduce future distributions to which an investor in BCRED would otherwise be entitled.

(8) There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses.

(9) As of September 30, 2023. Represents Blackstone Credit Insurance. The ALM for Blackstone, Blackstone Credit or any specific fund, account or investment strategy presented in this Fact Card may differ from any comparable ALM disclosure in other non-public or public sources (including public regulatory filings) due to, among other factors, methods of net asset value and capital commitment reporting, differences in categorizing certain funds and accounts based on specific investment strategies and exclusion of certain funds and accounts, or any part of net asset value or capital commitment thereof, from the related ALM calculations. Certain of these differences are in some cases required by applicable regulation. All figures are subject to change. Past performance does not predict future results. Further, an investment in the Common Shares of BCRED does not vote as the holder, as further described in the prospectus, Blackstone Credit, Blackstone and their respective affiliates will be subject to certain conflicts of interest with respect to any services provided to and compensation received from BCRED.

(10) As of September 30, 2023. Reflects unique corporate issuers across funds and accounts managed by Blackstone Credit's Liquid Credit Strategies and Private Credit Strategies groups.

(11) Select broker-dealers may have different suitability standards, may not offer all share classes, and/or may offer BCRED at a higher minimum initial investment than $2,500.

(12) Quarterly repurchases at NAV as of each quarter end. Quarterly repurchases are limited to 5.0% of aggregate shares outstanding (either by number of shares or aggregate NAV) as of the close of the previous calendar quarter. Shares held for less than one year and tendered for repurchase will be repurchased at 98% of NAV. The Board of Trustees may amend or suspend these share repurchases in its discretion if it deems such action to be in the best interest of shareholders.

(13) Shares have limited or no liquidity outside of our share repurchase program, and the BCRED board of trustees may amend or suspend the share repurchase program at any time if it deems such action to be in BCRED's best interest and the best interest of BCRED shareholders, such as when a repurchase offer would place an undue burden on BCRED liquidity, adversely affect operations or risk having an adverse impact on BCRED that would outweigh the benefit of the repurchase offer. As a result, share repurchases may not be available each quarter. Shares not held for one year will be repurchased at 98% of NAV. See BCRED's prospectus for more information.

Important Disclosure Information and Risk Factors

Summary of Risk Factors
Blackstone Private Credit Fund ("BCRED") is a non-exchange traded business development company ("BDC") that expects to invest at least 80% of its total assets (net assets plus borrowings for investment purposes) in private credit investments (loans, bonds and other credit instruments that are issued in private offerings or issued by private companies). This investment involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. You should read the prospectus carefully for a description of the risks associated with an investment in BCRED. These risks include, but are not limited to, the following:

- We have limited prior operating history and there is no assurance that we will achieve our investment objectives.
- This is an illiquid investment and you will not have the opportunity to sell your shares prior to the offering of these securities.
- You should not expect to be able to sell your shares regardless of how well or poorly the Fund performs.
- We do not intend to list our shares on any securities exchange, and we do not expect a secondary market in our shares to develop prior to any listing.
- Because we do not intend to list our shares, you will usually be unable to reduce your exposure in any market downturn.
- We have implemented a share repurchase program, but only a limited number of shares will be eligible for repurchase and repurchases will be subject to availability of liquid assets and other significant restrictions.
- An investment in our Common Shares is not suitable for you if you do not have access to the money you invest. See “Suitability Standards” and “Share Repurchase Program” in the prospectus.
- You will bear substantial fees and expenses in connection with your investment. See “Fees and Expenses” in the prospectus.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, returns of capital, and/or other sources, and we do not generally expect to fund distributions from cash flow from operations; we have not established limits on the amounts we may pay from such sources.
- Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by Blackstone-Private Credit BDC Advisors LLC ("the Adviser") or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
- We use and continue to expect to use leverage, which may magnify the potential for loss on amounts invested in us.
- We intend to invest in securities that are considered below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as “junk,” have predominately speculative characteristics with respect to the issuer’s capacity to pay interest and repay principal. They may also be illiquid and difficult to value.
- We do not own the Blackstone name, but we are permitted to use it as part of our corporate name pursuant to the investment advisory agreement between BCRED and an affiliate of Blackstone Inc. ("Blackstone"). Use of the name by other parties or the termination of the use of the Blackstone name pursuant to the investment advisory agreement may have an adverse impact on our business.
- Neither the Securities and Exchange Commission nor any state securities regulator has approved or disapproved of these securities or determined if the prospectus is truthful or complete. Any representation to the contrary is unlawful.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or (e.g., COVID-19), recessions, or other economic, political and global market events could lead to a significant reduction in the U.S. and global economy and have a significant impact on the Fund and its investments.
